Absolute Maxx[®] Fungicide

*Effectively and Efficiently Controls
Major Fungal Diseases*

Absolute[®] Maxx fungicide effectively and efficiently controls major fungal diseases in corn. It also promotes all-around plant health to maximize yield potential.

/// QUICK FACTS

Application Rate	Corn: 5.0 – 6.0 oz/A
Application Timing	Corn: Apply when disease first appears and continue on a 10-14 day interval if favorable conditions for disease development persist
Site-of-Action Group	 Tebuconazole  Trifloxystrobin

/// BENEFITS

Formulation

Offers more active ingredient than most competitive fungicides at the recommended rate with only one application.

Promotes Higher Yields

Stimulates plant growth, extended grain fill and overall plant health for higher yields.

Major Disease Control

Effectively controls all major fungal diseases when applied at tassel in corn.

Key Diseases Controlled

- | | |
|--------------------------------------|------------------|
| • Anthracnose Leaf Blight | • Southern Rust |
| • Eyespot | • Leaf Blight |
| • Gray Leaf Spot | • Powdery Mildew |
| • Northern/Southern Corn Leaf Blight | • Tan Spot |
| | • Glume Blotch |

Absolute Maxx® Yield Performance

2023 University Small Plot Promotional Trials
 Crop: Corn
 Locations: 4 (TAM1-AR, TDP1-VA, TTK2-AL, SG1-LA)
 Grow Stage: VT/R1
 P value 0.05

IMPORTANT: This bulletin is not intended to provide adequate information for use of these products. Read the label before using these products. Observe all label directions and precautions while using these products.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Performance may vary, from location to location and from year to year, as local growing, soil and environmental conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on their growing environment. The recommendations in this material are based upon trial observations and feedback received from a limited number of growers and growing environments. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions. Not all products are registered for use in all states and may be subject to use restrictions. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your local dealer or representative for the product registration status in your state. Bayer, Bayer Cross and Absolute Maxx® are registered trademarks of Bayer Group.
