

**ADMIRE<sup>®</sup> PRO**  
SYSTEMIC PROTECTANT

# Admire<sup>®</sup> Pro Insecticide

## Group 4A Insecticide

### /// INTRODUCTION TO ADMIRE<sup>®</sup> PRO INSECTICIDE

Admire Pro is a soil- and foliar-applied systemic insecticide that provides economical and enduring control of damaging insects in a variety of crops. Consistently delivering outstanding control of many sucking and chewing pests, Admire Pro was developed for today's farming operations. The improved, highly concentrated formulation is easy to mix, use and apply.

### /// ADMIRE PRO QUICK FACTS

- **Active Ingredient:** Imidacloprid
- **Signal Word:** Caution
- **REI:** 12 hours
- **PHI:** 7–21 days, depending on crop
- **Use Rate:** Varies by crop and pest

### /// BENEFITS

- **Broad-spectrum Control**  
Controls several key insects and helps stop transmission of certain vectored viral diseases in several crops.
- **Effective Technology**  
Delivers consistent and long-lasting systemic performance in the field.
- **Reliable Management Tool**  
Provides outstanding control of many damaging insects and pests.

### /// ADMIRE PRO ADVANTAGES FOR ACP INSECTICIDE PROGRAMS

- Increased flexibility with soil and foliar applications and control after petal fall and during fruit development.
- Use in a program with other modes of action to manage resistance and maintain effective products.
- Admire Pro with Sivanto<sup>®</sup> Prime and Movento<sup>®</sup> insecticides provide high-level control of ACP and defend against the spread of Huanglongbing (HLB).
