

BAYTHROID® XL

Baythroid® XL Insecticide

Group 3 Insecticide

Baythroid® XL Insecticide is the complete pyrethroid for many crops a provides fast, effective control of labeled primary and secondary pests. The technology in Baythroid XL delivers a high percentage of the high-activity isomers, resulting in greater knockdown power, longer-lasting residual and better value than other pyrethroid insecticides.

/// BAYTHROID® XL INSECTICIDE QUICK FACTS

- **Active Ingredient:** Beta-cyfluthrin
- **Signal Word:** Warning
- **Restricted Use:** Yes
- **REI:** 12 hours
- **PHI:** 0 to 30 days, depending on crop
- **Use Rate:** 0.8 to 6.4 fl. oz./A

Registered Crops	Key Pests
• Citrus • Corn • Cotton • Soybean • Wheat • Plus Many More	• Armyworms • Asian Citrus Psyllids (ACP) • Bollworms • Stink Bugs

/// BENEFITS

- **Broad Label**
The broadest pyrethroid label available, covering citrus, corn, soybeans, cotton, wheat and more.
- **Consistent Performance**
Fast knockdown and long residual control on a broad spectrum of insect pests, including budworms, bollworms, stink bugs and more.
- **Flexible Application**
End user flexibility due to short re-entry and preharvest intervals and an easy-to-use EC formulation, available in a variety of pack sizes.
- **Non-Closed Systems**
Less environmental load since less active ingredient is needed for effective control. The label does not require a closed system.

/// PROVEN PEST CONTROL

- The leading pyrethroid insecticide for suppression of citrus thrips, providing great knockdown power.
- Leading product for fast, effective control of katydids.
- Quick knockdown of worms and lepidopterans.

Baythroid® XL Insecticide Provides Excellent Knockdown and Control of ACP

Study performed by Dr. Michael Rogers, University of Florida, Winter Garden, FL, 2012.

IMPORTANT: This bulletin is not intended to provide adequate information for use of these products. Read the label before using these products. Observe all label directions and precautions while using these products.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

Not all products are registered for use in all states and may be subject to use restrictions. Performance may vary, from location to location and from year to year, as local growing, soil and environmental conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on their growing environment. The recommendations in this material are based upon trial observations and feedback received from a limited number of growers and growing environments. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions. Baythroid® XL is a restricted use pesticide. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your local dealer or representative for the product registration status in your state. Bayer and Bayer Cross are registered trademarks of Bayer Group.
