1/11  
Revision Date: 13.01.2017  
Print Date: 14.11.2017

**SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**

**1.1 Product identifier**

**Trade name** CONVISO ONE OD80 4X5L BOT UA  
**Product code (UVP)** 80979444

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

**Use** Herbicide

**1.3 Details of the supplier of the safety data sheet**

**Supplier** Bayer AG  
Kaiser-Wilhelm-Allee 1  
51373 Leverkusen  
Germany  
**Telefax** +49(0)2173-38-7394  
**Responsible Department** Substance Classification & Registration  
+49(0)2173-38-3409 (during business hours only)  
Email: BCS-SDS@bayer.com

**1.4 Emergency telephone no.**

**Emergency telephone no.** Global Incident Response Hotline (24h)  
+1 (760) 476-3964 (Company 3E for Bayer AG, Crop Science Division)

**SECTION 2: HAZARDS IDENTIFICATION**

**2.1 Classification of the substance or mixture**

**Classification in accordance with Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures, as amended.**

Aspiration hazard: Category 1  
H304 May be fatal if swallowed and enters airways.

Skin irritation: Category 2  
H315 Causes skin irritation.

Skin sensitisation: Category 1  
H317 May cause an allergic skin reaction.

Serious eye damage: Category 1  
H318 Causes serious eye damage.

Acute toxicity: Category 4  
H332 Harmful if inhaled.

Acute aquatic toxicity: Category 1  
H400 Very toxic to aquatic life.

Chronic aquatic toxicity: Category 1  
H410 Very toxic to aquatic life with long lasting effects.

**2.2 Label elements**

**Labelling in accordance with Regulation (EC) No 1272/2008 on classification, labelling and**

**CONVISO ONE OD80 4X5L BOT UA**Version 4 / EU  
1020000257432/11  
Revision Date: 13.01.2017  
Print Date: 14.11.2017**packaging of substances and mixtures, as amended.**

Hazard label for supply/use required.

**Hazardous components which must be listed on the label:**

- Thiencarbazone-methyl
- Foramsulfuron

**Signal word:** Danger**Hazard statements**

H304 May be fatal if swallowed and enters airways.  
 H315 Causes skin irritation.  
 H317 May cause an allergic skin reaction.  
 H318 Causes serious eye damage.  
 H332 Harmful if inhaled.  
 H410 Very toxic to aquatic life with long lasting effects.  
 EUH401 To avoid risks to human health and the environment, comply with the instructions for use.

**Precautionary statements**

P261 Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.  
 P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.  
 P331 Do NOT induce vomiting.  
 P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER/doctor/ physician.  
 P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 P501 Dispose of contents/container in accordance with local regulation.

**2.3 Other hazards**

No other hazards known.

**SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS****3.2 Mixtures****Chemical nature**

Oil dispersion (OD)  
 Thiencarbazone-methyl 30g/l; Foramsulfuron 50 g/l

**Hazardous components**

**SECTION 4: FIRST AID MEASURES****4.1 Description of first aid measures**

|                       |                                                                                                                                                                                                                                          |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b> | Move out of dangerous area. Place and transport victim in stable position (lying sideways). Remove contaminated clothing immediately and dispose of safely.                                                                              |
| <b>Inhalation</b>     | Move to fresh air. Keep patient warm and at rest. Call a physician or poison control center immediately.                                                                                                                                 |
| <b>Skin contact</b>   | Wash off thoroughly with plenty of soap and water, if available with polyethyleneglycol 400, subsequently rinse with water. If symptoms persist, call a physician.                                                                       |
| <b>Eye contact</b>    | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a physician or poison control center immediately. |
| <b>Ingestion</b>      | Do NOT induce vomiting. Call a physician or poison control center immediately. Rinse mouth.                                                                                                                                              |

**4.2 Most important symptoms and effects, both acute and delayed**

|                 |                                |
|-----------------|--------------------------------|
| <b>Symptoms</b> | No symptoms known or expected. |
|-----------------|--------------------------------|

**CONVISO ONE OD80 4X5L BOT UA**

Version 4 / EU  
102000025743

**4/11**  
Revision Date: 13.01.2017  
Print Date: 14.11.2017

**4.3 Indication of any immediate medical attention and special treatment needed**

|                  |                                                                                                                                                                                                                                                                          |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Treatment</b> | Treat symptomatically. In case of ingestion gastric lavage should be considered in cases of significant ingestions only within the first 2 hours. However, the application of activated charcoal and sodium sulphate is always advisable. There is no specific antidote. |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

---

**SECTION 5: FIREFIGHTING MEASURES**

**5.1 Extinguishing media**

|                 |                                                                          |
|-----------------|--------------------------------------------------------------------------|
| <b>Suitable</b> | Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. |
|-----------------|--------------------------------------------------------------------------|

|                   |                       |
|-------------------|-----------------------|
| <b>Unsuitable</b> | High volume water jet |
|-------------------|-----------------------|

|                                                                  |                                                                                                                                                                   |
|------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>5.2 Special hazards arising from the substance or mixture</b> | In the event of fire the following may be released: Hydrogen cyanide (hydrocyanic acid), Carbon monoxide (CO), Nitrogen oxides (NO <sub>x</sub> ), Sulphur oxides |
|------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**5.3 Advice for firefighters**

|                                                      |                                                                                                                            |
|------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <b>Special protective equipment for firefighters</b> | In the event of fire and/or explosion do not breathe fumes. In the event of fire, wear self-contained breathing apparatus. |
|------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|

|                            |                                                                                                                          |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------|
| <b>Further information</b> | Contain the spread of the fire-fighting media. Do not allow run-off from fire fighting to enter drains or water courses. |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------|

---

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

**6.1 Personal precautions, protective equipment and emergency procedures**

|                    |                                                                                                 |
|--------------------|-------------------------------------------------------------------------------------------------|
| <b>Precautions</b> | Avoid contact with spilled product or contaminated surfaces. Use personal protective equipment. |
|--------------------|-------------------------------------------------------------------------------------------------|

|                                      |                                                                  |
|--------------------------------------|------------------------------------------------------------------|
| <b>6.2 Environmental precautions</b> | Do not allow to get into surface water, drains and ground water. |
|--------------------------------------|------------------------------------------------------------------|

**6.3 Methods and materials for containment and cleaning up**

|                                |                                                                                                                                                                                                                                                 |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Methods for cleaning up</b> | Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Clean contaminated floors and objects thoroughly, observing environmental regulations. Keep in suitable, closed containers for disposal. |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|                                        |                                                                                                                                                                                     |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>6.4 Reference to other sections</b> | Information regarding safe handling, see section 7.<br>Information regarding personal protective equipment, see section 8.<br>Information regarding waste disposal, see section 13. |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

5/11

Revision Date: 13.01.2017

Print Date: 14.11.2017

|                                                                         |                                                                                                                                                                                                                                                                                          |
|-------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Advice on safe handling</b>                                          | Use only in area provided with appropriate exhaust ventilation.                                                                                                                                                                                                                          |
| <b>Hygiene measures</b>                                                 | Avoid contact with skin, eyes and clothing. Keep working clothes separately. Wash hands immediately after work, if necessary take a shower. Remove soiled clothing immediately and clean thoroughly before using again. Garments that cannot be cleaned must be destroyed (burnt).       |
| <b>7.2 Conditions for safe storage, including any incompatibilities</b> |                                                                                                                                                                                                                                                                                          |
| <b>Requirements for storage areas and containers</b>                    | Store in original container. Store in a place accessible by authorized persons only. Keep containers tightly closed in a dry, cool and well-ventilated place. Store bulk material and packed materials in a closed warehouse or under cover protected against direct sunlight and frost. |
| <b>Advice on common storage</b>                                         | Keep away from food, drink and animal feedingstuffs.                                                                                                                                                                                                                                     |
| <b>Suitable materials</b>                                               | Only IBC 1000 liter are recommended as bulk container for re-filling.<br>Coex HDPE/PA<br>Coex HDPE/EVOH/HDPE                                                                                                                                                                             |
| <b>7.3 Specific end use(s)</b>                                          | Refer to the label and/or leaflet.                                                                                                                                                                                                                                                       |

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION****8.1 Control parameters**

| Components            | CAS-No.     | Control parameters            | Update | Basis        |

\*OES BCS: Internal Bayer AG, Crop Science Division "Occupational Exposure Standard"

**8.2 Exposure controls****Personal protective equipment**

In normal use and handling conditions please refer to the label and/or leaflet. In all other cases the following recommendations would apply.

|                               |                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Respiratory protection</b> | Respiratory protection is not required under anticipated circumstances of exposure.<br>Respiratory protection should only be used to control residual risk of short duration activities, when all reasonably practicable steps have been taken to reduce exposure at source e.g. containment and/or local extract ventilation. Always follow respirator manufacturer's instructions regarding wearing and maintenance. |
| <b>Hand protection</b>        | Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.<br>Wash gloves when contaminated. Dispose of when contaminated                                                                  |

**SECTION 10: STABILITY AND REACTIVITY****10.1 Reactivity****Thermal decomposition** Stable under normal conditions.**10.2 Chemical stability** Stable under recommended storage conditions.**10.3 Possibility of hazardous reactions** No hazardous reactions when stored and handled according to prescribed instructions.**10.4 Conditions to avoid** Extremes of temperature and direct sunlight.**10.5 Incompatible materials** Store only in the original container.**10.6 Hazardous decomposition products** No decomposition products expected under normal conditions of use.**SECTION 11: TOXICOLOGICAL INFORMATION****11.1 Information on toxicological effects****Acute oral toxicity** LD50 (Rat) > 2.000 mg/kg**Acute inhalation toxicity** LC50 (Rat) 4,91 mg/l  
Exposure time: 4 h  
Determined in the form of a respirable aerosol.**Acute dermal toxicity** LD50 (Rat) > 2.000 mg/kg**Skin irritation** Irritating to skin. (Rabbit)**Eye irritation** Severe eye irritation. (Rabbit)**Sensitisation** Sensitising (Mouse)  
OECD Test Guideline 429, local lymph node assay (LLNA)**Assessment STOT Specific target organ toxicity – repeated exposure**

Thiencarbazon-methyl did not cause specific target organ toxicity in experimental animal studies.  
Foramsulfuron did not cause specific target organ toxicity in experimental animal studies.

**Assessment mutagenicity**

Thiencarbazon-methyl was not mutagenic or genotoxic in a battery of in vitro and in vivo tests.  
Foramsulfuron was not mutagenic or genotoxic based on the overall weight of evidence in a battery of in vitro and in vivo tests.

**Assessment carcinogenicity**

Thiencarbazon-methyl was not carcinogenic in a lifetime feeding study in rats. Thiencarbazon-methyl caused at high dose levels an increased incidence of tumours in mice in the following organ(s): urinary bladder. The tumours seen with Thiencarbazon-methyl were caused through the chronic irritation due

**CONVISO ONE OD80 4X5L BOT UA**Version 4 / EU

Revision Date: 13.01.2017  
Print Date: 14.11.2017

to the presence of bladder stones.

Foramsulfuron was not carcinogenic in lifetime feeding studies in rats and mice.

**Assessment toxicity to reproduction**

Thiencarbazone-methyl did not cause reproductive toxicity in a two-generation study in rats.

Foramsulfuron did not cause reproductive toxicity in a two-generation study in rats.

**Assessment developmental toxicity**

Thiencarbazone-methyl did not cause developmental toxicity in rats and rabbits.

Foramsulfuron did not cause developmental toxicity in rats and rabbits.

**Aspiration hazard**

May be fatal if swallowed and enters airways.

---

**SECTION 12: ECOLOGICAL INFORMATION****12.1 Toxicity**

**Toxicity to fish** LC50 (Oncorhynchus mykiss (rainbow trout)) 6,72 mg/l  
static test; Exposure time: 96 h

**Toxicity to aquatic invertebrates** EC50 (Daphnia magna (Water flea)) 6,21 mg/l  
static test;  
Exposure time: 48 h

**Toxicity to aquatic plants** EC50 (Raphidocelis subcapitata (freshwater green alga)) 3,81 mg/l  
Growth rate; Exposure time: 72 h  
EC50 (Lemna gibba (gibbous duckweed)) 0,0134 mg/l  
Growth rate; Exposure time: 7 d

**12.2 Persistence and degradability**

**Biodegradability** Thiencarbazone-methyl:  
Not rapidly biodegradable  
Foramsulfuron:  
Not rapidly biodegradable

**Koc** Thiencarbazone-methyl: Koc: 100  
Foramsulfuron: Koc: 38 - 151

**12.3 Bioaccumulative potential**

**Bioaccumulation** Thiencarbazone-methyl:  
Does not bioaccumulate.  
Foramsulfuron:  
Does not bioaccumulate.

**12.4 Mobility in soil**

**Mobility in soil** Thiencarbazone-methyl: Moderately mobile in soils  
Foramsulfuron: Mobile in soils

**12.5 Results of PBT and vPvB assessment**

**PBT and vPvB assessment** Thiencarbazone-methyl: This substance is not considered to be persistent, bioaccumulative and toxic (PBT). This substance is not considered to be very persistent and very bioaccumulative (vPvB).

**SECTION 16: OTHER INFORMATION**

**Text of the hazard statements mentioned in Section 3**

|      |                                                       |
|------|-------------------------------------------------------|
| H226 | Flammable liquid and vapour.                          |
| H304 | May be fatal if swallowed and enters airways.         |
| H315 | Causes skin irritation.                               |
| H317 | May cause an allergic skin reaction.                  |
| H318 | Causes serious eye damage.                            |
| H319 | Causes serious eye irritation.                        |
| H332 | Harmful if inhaled.                                   |
| H335 | May cause respiratory irritation.                     |
| H336 | May cause drowsiness or dizziness.                    |
| H400 | Very toxic to aquatic life.                           |
| H410 | Very toxic to aquatic life with long lasting effects. |
| H411 | Toxic to aquatic life with long lasting effects.      |
| H412 | Harmful to aquatic life with long lasting effects.    |

The information contained within this Safety Data Sheet is in accordance with the guidelines established by Regulation (EU) 1907/2006 and Regulation (EU) 2015/830 amending Regulation (EU) No 1907/2006 and any subsequent amendments. This data sheet complements the user's instructions, but does not replace them. The information it contains is based on the knowledge available about the product concerned at the time it was compiled. Users are further reminded of the possible risks of using a product for purposes other than those for which it was intended. The required information complies with current EEC legislation. Addressees are requested to observe any additional national requirements.
