

Early Season Win over Weeds. End of Season Rewards.

Powered by excellent control of emerged weeds and reactivation, Corvus® herbicide delivers an early season win against weeds.

/// BENEFITS

- **Proven Performance**

With over 10 years of proven performance, Corvus® delivers outstanding control of emerged weeds.

- **Resistance Management**

Multiple sites of action provide strong control of troublesome grass and broadleaf weeds, and discourage the development of weed resistance.

- **Reactivation**

Unique chemistry triggers reactivation with as little as a half inch of rain, ensuring consistent weed control even under adverse environmental conditions.

/// FACTS

- Corvus® delivers rapid burndown to take out early-emerging weeds, long-lasting residual to prevent new weeds and reactivation with rain to get late-emerging weeds.
- With its two modes of action, Corvus® controls more than 65 grass and broadleaf weeds.
- Just a half inch or more of rain reactivates Corvus® and boosts its weed control properties.
- Because of its low use rate, Corvus® can be applied

in ounces vs. pints or quarts per acre required by other herbicides.

- Corvus® is labeled to control more than 65 grass and broadleaf weeds, including foxtail, common ragweed, waterhemp and other weeds exhibiting resistance to glyphosate, PPO, triazine and ALS herbicides.

Registered Crops

- | | |
|--------------|---------------|
| • Field Corn | • Silage Corn |
| • Seed Corn | |

Key Pests

- | | |
|--------------------|------------------------|
| • Common Waterhemp | • Common Ragweed |
| • Palmer Amaranth | • Maretail |
| • Foxtail Species | • Common Lambsquarters |
| • Kochia | • Velvetleaf |

Formulation Information

- | | |
|--|--------------------------|
| • Isoxaflutole
(1.88 lbs ai/gal) | • Suspension Concentrate |
| • Thien carbazonone
(0.75 lbs ai/gal) | |

Application Rate	3.33 to 5.6 fl oz/A
Application Timing	Preplant, Preemergence, Early Postemergence (through V2)
Site-of-Action Group*	2 27
Recommended Tankmix Options	Atrazine 5 DiFlexx® herbicide 4 Warrant® and Harness® herbicides 15 Harness® Xtra, Harness Xtra 5.6 and Degree Xtra® herbicides 5 15 Glyphosate 9

IMPORTANT: This bulletin is not intended to provide adequate information for use of these products. Read the label before using these products. Observe all label directions and precautions while using these products.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Performance may vary, from location to location and from year to year, as local growing, soil and environmental conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on their growing environment. The recommendations in this material are based upon trial observations and feedback received from a limited number of growers and growing environments. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions. Corvus®, Degree Xtra®, Harness® Xtra 5.6L Herbicide and Harness® Xtra Herbicide are restricted use pesticides. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your state department(s) of agriculture, local dealer or representative for the product registration status in your state. Not all products are registered for use in all states and may be subject to use restrictions.
