

Powerful, Long Lasting Grass and Broadleaf Weed Control

Degree Xtra® herbicide is a premix that contains acetochlor and atrazine. As soil temperatures rise, the patented micro-encapsulation technology in Degree Xtra delivers an immediate dose of atrazine with a slow release of acetochlor for just the right amount of weed control. The process allows for increased crop safety and longer-lasting residual control of a wide range of key grass and broadleaf weeds.

/// BENEFITS

- Powerful Weed Control**
 Controls a wide range of key grasses and broadleaf weeds, including barnyardgrass, foxtail species, waterhemp and lambsquarters.
- Flexibility**
 Application and tank-mixing flexibility from preplant to early postemergence applications in corn up to 11 inches.
- Improved Crop Safety and Weed Control**
 Degree Xtra herbicide provides a dose of atrazine with a slow release of acetochlor, triggered by moisture and a rise in soil temperature. The process allows for increased crop safety and longer-lasting residual control.

Registered Crops	
• Field Corn	• Popcorn
• Production Seed Corn	• Grain Sorghum
• Silage Corn	• Miscanthus or other non-food bioenergy crops
• Sweet Corn	

Key Pests	
• Common Waterhemp	• Common Cocklebur
• Foxtail Species	• Common Lambsquarters
• Barnyardgrass	• Common Ragweed

Formulation Information	
• Acetochlor (2.7 lbs ai/gal)	Capsule Suspension
• Atrazine (1.34 lbs ai/gal)	

CORN

Application Rate	2.9 to 4.3 qts /A
Application Timing	Preplant, Preemergence, Early Postemergence (up to 11" corn)
Site-of-Action Group*	5 15

Recommended Tankmix Options

- Corvus[®] herbicide 2 27
- Capreno[®] herbicide 2 27
- Balance[®] Flexx herbicide 27
- DiFlexx[®] herbicide 4
- DiFlexx[®] DUO herbicide 4 27
- Laudis[®] herbicide 27
- Roundup[®] PowerMAX[®] 3 herbicide 9

GRAIN SORGHUM

Application Rate	2 to 3.7 qts /A
Application Timing	Preplant, Preemergence, Early Postemergence (up to 11" grain sorghum)
Site-of-Action Group*	5 15
