

LAUDIS[®]

Punish Weeds While Protecting Your Corn

Laudis[®] postemergence herbicide provides powerful residual grass and broadleaf control combined with crop safety.

/// BENEFITS

- **Powerful Weed Control**
Delivers postemergence control of grass and broadleaf weeds.
- **Residual Control**
Stays active in the soil during the growing season, offering residual control of weeds, but does not limit crop rotation opportunities to soybeans the following season.
- **Crop Safety**
The safener enables corn to better withstand herbicidal activity, which can lead to improved plant health.

/// FACTS

- The safener in Laudis herbicide enables plants to better withstand herbicidal activity and delivers outstanding weed control in harmony with corn. Laudis offers unequalled crop safety in use on field corn, seed corn, sweet corn, white corn, popcorn and corn grown for silage.
- Crop tolerance to Laudis surpasses that of other herbicides within the same chemical family, as well as other traditional herbicides, including SU chemistries.
