## FIFRA 2(ee) Recommendation

**FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF CALIFORNIA**

### LUNA SENSATION®

EPA Reg. No. 264-1090

**For Control of Anthracnose in Walnut**

**FIFRA Section 2(ee) Recommendation:** This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA. This product bulletin should be in the possession of the user at the time of application of the product. All applicable directions, restrictions and precautions on the EPA registered label are to be followed.

#### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its label.

| Walnut [including black and English (Persian) walnuts].                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                   |                                                                                                                                                                                                                                                                                                                                                           |
