

Trusted Protection Against FHB and Foliar Diseases in Cereals

Prosaro® fungicide gives wheat growers powerful activity on both leaf and head diseases for broad-spectrum disease control, and delivers proven yield and quality increases under a wide range of environmental conditions.

/// BENEFITS

- **Proven Disease Control**
Proven control of both leaf and head diseases to give you broad-spectrum disease control.
Excellent performance against Fusarium head blight (FHB, or scab) and proven deoxynivalenol (DON) reduction in harvested grain.
- **Fast Action that Lasts**
Unique combination of fast action and long residual.

/// IMPROVED QUALITY AND YIELD

In replicated research trials, the broad-spectrum performance of Prosaro has consistently increased yield and helped preserve grain quality.
