

Raxil[®] PRO SHIELD

Disease and Pest Protection

Give your seed an early season advantage for stronger stands and high yield potential with Raxil[®] PRO Shield Seed Treatment fungicide and insecticide. Experience the same advanced broad-spectrum disease control as Raxil[®] PRO MD seed treatment with three modes of action against scab, smut and bunt, plus the added benefit of imidacloprid to protect seedlings from pests like wireworms and aphids.

With less early season stress, Raxil PRO Shield enables your plant to focus energy on increased growth and seed production, resulting in better root establishment, improved vigor and increased yield. Trials in 2016 showed seeds treated with Raxil PRO Shield reported an average yield increase of 1.5 bu./A vs. untreated seeds.

/// KEY BENEFITS

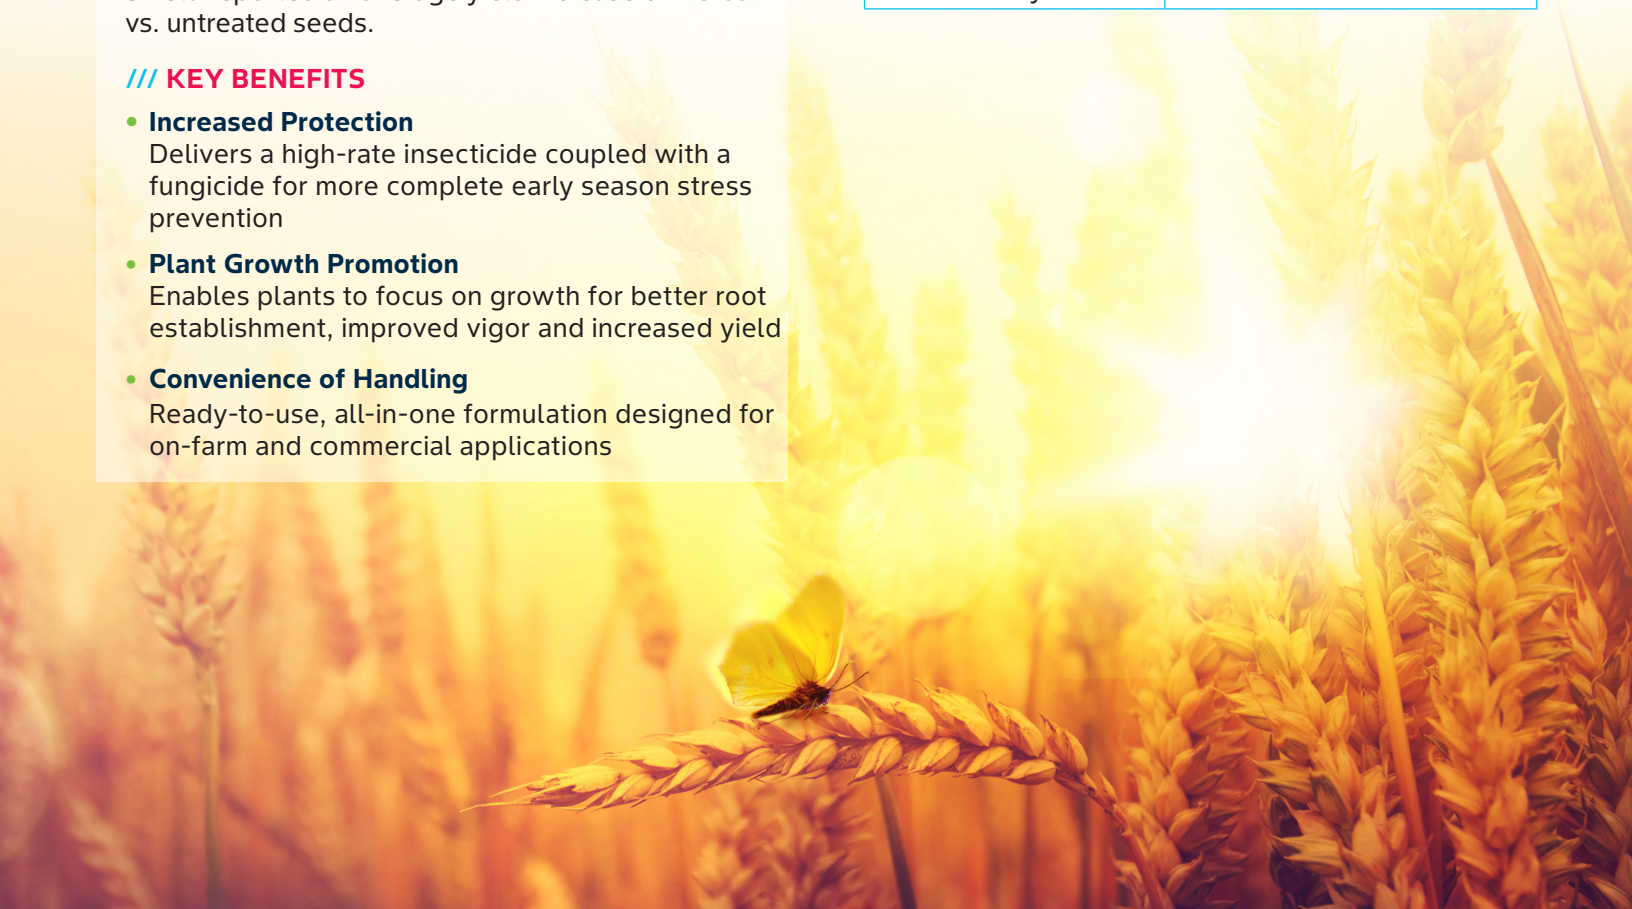

- **Increased Protection**
Delivers a high-rate insecticide coupled with a fungicide for more complete early season stress prevention
- **Plant Growth Promotion**
Enables plants to focus on growth for better root establishment, improved vigor and increased yield
- **Convenience of Handling**
Ready-to-use, all-in-one formulation designed for on-farm and commercial applications
