

STRYAX™

DICAMBA HERBICIDE

Advanced Weed Control at Work in Your Fields

/// BENEFITS

Stryax™ herbicide is an ideal dicamba option in managing glyphosate-resistant broadleaf weeds and other tough to control species in dicamba-tolerant soybean and cotton fields.

- Provides up to 14 days of limited soil activity* on certain broadleaf weeds, helping to extend weed suppression beyond initial application.
- Designed as an additional option for broadleaf weed control in soybeans with XtendFlex® Technology, soybeans with Roundup Ready 2 Xtend® Technology and cotton with XtendFlex® Technology.
- Stryax™ herbicide is a restricted use pesticide and all applications require a qualified volatility reduction agent and a drift reduction agent in the tank mix.

*areas with rainfall and/or irrigation after application with dicamba will have reduced or limited efficacy on emerging weeds

Registered Crops

- Soybeans with XtendFlex® Technology
- Soybeans with Roundup Ready 2 Xtend® Technology
- Cotton with XtendFlex® Technology

Key Pests

- Palmer Amaranth
- Waterhemp Species
- Giant Ragweed
- Velvetleaf
- Lambsquarter
- Kochia
- Marestail

Recommended Tankmix Options

Glyphosate	9
Warrant® herbicide	15

All applications of this product require the inclusion of a volatility reduction agent (VRA) and a drift reduction agent (DRA).

STRYAX APPLICATION REQUIREMENTS

IMPORTANT: This bulletin is not intended to provide adequate information for use of these products. Read the label before using these products. Observe all label directions and precautions while using these products.

Quick Facts

Active Ingredient	Dicamba
Salt Formulation	Diglycolamine (DGA)
Acid Equivalent/Gallon	2.9 lb/gal
Pre-emergence Use Rate	22 fl oz/A*
Postemergence Use Rate	22 fl oz/A*
Maximum Combined Total Per Year for All Applications	44 fl oz/A
Application Timing	Soybeans - Through R1** Cotton - Up to 7 Days Prior to Harvest**
Minimum Spray Volume	15 ga/A
Herbicide Group	4

*22 fl oz/A = 0.5 lb acid equivalent (a.e.)/A

** Some states may have additional requirements

No dicamba may be used in-crop with seed with Roundup Ready® Xtend Technology, unless and until approved or specifically permitted in the state of application. Please follow www.roundupreadyxtend.com/pages/xtendimax-updates.aspx for status updates. Dicamba may harm plants that are not tolerant to dicamba. Bayer is a member of Excellence Through Stewardship® (ETS). Bayer's biotechnology-derived products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Where applicable, commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from commercialized products can only be exported to, or used, processed or sold in countries where all applicable regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for commercialized products. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship. It is a violation of federal and state law to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend® soybeans. NOT ALL formulations of dicamba, glyphosate or glufosinate are approved for in-crop use with products with XtendFlex® Technology. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with products with XtendFlex® Technology. B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state. Roundup Ready 2 Xtend® soybeans contain genes that confer tolerance to glyphosate and dicamba. Products with XtendFlex® Technology contains genes that confer tolerance to glyphosate, glufosinate and dicamba. Plants that are not tolerant to glyphosate may be damaged or killed if exposed to those herbicides. Plants that are not tolerant to glyphosate, dicamba, and/or glufosinate may be damaged or killed if exposed to those herbicides. Plants that are not tolerant to dicamba may be damaged or killed if exposed to those herbicides. Contact your seed brand dealer or refer to the Bayer Technology Use Guide for recommended weed control programs. Roundup Ready 2 Xtend® and XtendFlex® are registered trademarks of Bayer Group. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

Stryax™ herbicide is a restricted use pesticide and must always be tank-mixed with a qualified volatility reduction adjuvant (VRA), such as a VaporGrip® Xtra Agent, and a drift reduction agent (DRA) as required on the product label. For qualified VRAs and other important label information visit www.StryaxApplicationRequirements.com.

The user must check www.StryaxApplicationRequirements.com no more than 7 days before application of this product for additional labeling and any additional state-specific labeling. Where applicable, users must comply with additional requirements found on www.StryaxApplicationRequirements.com. Stryax™ herbicide is a restricted use pesticide. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your state department(s) of agriculture, local dealer or representative for the product registration status in your state. Not all products are registered for use in all states and may be subject to use restrictions. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your state department(s) of agriculture, local dealer or representative for the product registration status in your state. Insect Resistance Management — Planting Refuges, Preserving Technology

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management,** for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.
